

# FFDP - A Little Bit Off

## D F G C, D F G D

I'm a little bit off today,  
something down inside me's different  
Woke up a little off today,  
I can tell that something's wrong  
I'm a little thrown off today,  
there's something going on inside me  
I'm a little bit off today,  
a little bit off today  
(I'm a little bit off today, a little bit off)

See, I'm a little bit off today,  
I cannot put my finger on it  
Got up a little off today,  
just to play that same old song  
I don't really wanna try today,  
I see nothing in my reflection  
I'm a little bit dry today,  
feel like I could die today  
Feel like I could die today

### **[CHORUS]**

Hey yeah, hey yeah  
Hey yeah, don't ya know? (I'm a little bit off)  
Hey yeah, hey yeah  
Hey, you gotta let it go (I'm a little, just a little bit off)

I'm a little pissed off today and there ain't  
nothing you can do about it  
I'm a little put off today  
and I could not tell you why  
Got a really short fuse today,  
everyone around me's fucking crazy

# FFDP - A Little Bit Off

I'm a little ticked off today,  
a little pissed off today  
(I'm a little bit off today)

I told a little white lie today,  
I smiled and told someone I loved them  
I had to say goodbye today  
to someone that I love  
I couldn't even cry today,  
I think my heart is finally broken  
Didn't need a reason why today,  
I don't need a reason why today

## **[CHORUS]**

I got a little too high today, got lost inside a sea of madness  
Crashed a little bit hard today, crashed a little too hard today

## **[PAUSE]**

Everybody sing

## **[CHORUS]**

I'm a little bit off today  
Something down inside me feels so different  
Just a little bit off today  
You can all fuck off today
